Summary

Innovative and detail-oriented Frontend Developer with 3+ years of experience in designing and developing high-performance web applications using React.js, Next.js, and modern UI/UX principles. Proven expertise in creating responsive, user-friendly interfaces, optimizing application performance, and implementing scalable solutions. Skilled in collaborating with cross-functional teams, translating complex design mockups into functional applications, and leveraging state management tools like Redux for seamless user experiences. Adept at integrating RESTful APIs, reducing development time through reusable components, and enhancing system reliability. Passionate about delivering intuitive designs that align with user needs and drive business goals.

Areas of Expertise

- Proficient in creating dynamic, mobile-friendly, and visually appealing web interfaces using React.js, Next.js, and modern CSS frameworks like Tailwind CSS and Bootstrap.
- Expertise in translating UI/UX designs into functional, user-centered applications while ensuring seamless design consistency and accessibility compliance.
- Skilled in integrating RESTful APIs and optimizing data handling processes to improve performance and reliability.
- Strong knowledge of state management tools, including Redux and Context API, to ensure efficient application architecture and smooth data flow.
- Experienced in enhancing web application speed and performance through SSR/CSR strategies, efficient coding practices, and resource optimization.

Technical Skills

- **Frontend Development**: React.js, Next.js, React Hook Form, Bootstrap, Tailwind CSS. HTML 5, CSS 3
- **State Management**: Redux, Redux-Toolkit
- **Backend Development**: Node.js, Express.js, GraphQl
- **Database Management**: MongoDB, MySQL, Firebase
- **Programming Languages**: JavaScript, C++
- **Development Tools**: Git, Postman, VS Code, Kanban Flow
- **UI Frameworks**: Aceternity UI, Ant Design, Material UI, Semantic UI

Skills

Typescript	Effective Communication	Troubleshooting
Responsive Design	Collaboration and Teamwork	Accessibility Standards (WCAG)
Cross-Browser Compatibility	Visual Studio Code	Version Control Systems
Performance Optimization	Web Application Security Basics	Modular Component Design
Material UI	Time Management	User Testing and Debugging
Semantic UI	Code Refactoring	RESTful APIs
Agile Development	Adaptability	Attention to Detail

Professional Experience

Senior Frontend Software Engineer (Next.js)   _05/09/2023 – 01/07/2025_
Cloud Mesh Solutions | Islamabad, Pakistan

Design and develop dynamic, responsive web applications using Next.js, ensuring high performance and scalability. Implement and optimize both client-side rendering (CSR) and server-side rendering (SSR) to enhance loading speed and user experience. Collaborate closely with UI/UX teams to translate visual designs into functional, user-friendly interfaces while maintaining seamless integration.

Key Achievements:
→ Increased web application performance by 35% through efficient code optimization and leveraging Next.js features for SSR and dynamic routing.
→ Enhanced development efficiency by reducing component build time by 50% through the creation of reusable, modular components.
→ Streamlined data handling by integrating 10+ RESTful APIs, improving data accuracy and reducing request latency by 25%.

Frontend Integration Developer (React.js)   _15/04/2023 – 04/09/2023_
Lala Group of Companies | Rawalpindi, Pakistan

Collaborated actively with cross-functional teams to integrate APIs seamlessly into React.js applications, ensuring smooth functionality and compatibility. Designed and implemented scalable API integration solutions, focusing on enhancing user experience and application performance. Managed and optimized API requests using data caching and asynchronous operations to ensure efficient data flow and reduce latency.

Key Achievements:
→ Accelerated development speed by 40% by creating reusable and modular API handling components, minimizing redundant code.
→ Reduced API response times by 25% through strategic optimizations in data fetching and error-handling mechanisms.

→ Improved system reliability by identifying and resolving over 30 API integration issues, resulting in a 20% reduction in user-reported bugs.

Frontend Development Intern   *12/2020 – 06/2021*
Bit's & Byte's Technologies | Rawalpindi, Pakistan
Developed responsive web applications using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and user-friendly interfaces. Collaborated with UX/UI designers to implement design mockups into functional web elements, focusing on aesthetic and usability standards. Maintained code quality by writing clean, modular JavaScript and using version control systems like Git for seamless team collaboration.
Key Achievements:
→ Enhanced website performance by 30% through the efficient use of the Bootstrap framework and optimized CSS styling.
→ Reduced development time by 20% by creating reusable components for consistent and faster implementation of features.
→ Contributed to accessibility improvements, enabling support for diverse users and increasing site usability by 25%.

Projects

Buero-365 Portal   **05/09/2023 – 31/12/2023**
Tools: Nextjs, Tailwind CSS, Nodejs, MongoDB, AWS
- Buero-365 offers comprehensive business management services tailored for entrepreneurs. We specialize in lead and contract management, invoice generation, and email tracking to streamline operations. With a focus on improving productivity, we provide customized solutions for businesses looking to enhance their workflow and efficiency. Empowering entrepreneurs with the tools needed for growth and success.

Kaufes   **10/2022 – 07/2023**
Tools: Nextjs, Tailwind CSS, Nodejs, MongoDB, AWS
- Kaufes is Switzerland's premier online marketplace, offering a wide range of new and pre-owned products across various categories. We connect buyers and sellers, providing a seamless shopping experience with secure transactions. From electronics to furniture and fashion, Kaufes.ch helps you find quality products at competitive prices. Whether you're buying or selling, we make the process simple, safe, and efficient.

Education

BS Computer Science | *Federal Urdu University of Arts, Sciences, and Technology, Islamabad | 06/2019 – 07/2023*

Certifications

MERN Stack - ES6+React, Hazza Institute of Technology

Languages

Urdu – Native | English - Medium

Personal Details

Date of Birth: 02/11/2001
Nationality: Pakistani
Gender: Male
